Daniel Chcouri

Tzvi Erlich 3 b Rehovot, 054-8836191, 333222@gmail.com, http://theosp.me

I'm a web developer eager for new challenges.

♦ Using the Unix command line for my day to day work, and Vim as my editor – See a lecture I gave about my working environment in an annual Linux convention at Israel: http://bit.ly/fl34A9
♦ Extensive experience in all aspects of web-development (both server-side and client)
♦ Commitment to standards. See my blogpost: http://bit.ly/ebf6So
♦ Documentation and code history transparency (with git)
♦ Advanced Javascript and Python skills: NodeJs servers/tools, browsers, and event deriven development
♦ Experinced with using cloud services (App Engine/Amazon SimpleDB)
♦ Always eager to be at the edge of technological development (YC news is my home page)
♦ Lots of open sourced repositories at github. Check my account there: https://github.com/theosp – and see next page
♦ Check also my humble stackoverflow account: http://bit.ly/iQx6yM

CAREER & ACHIEVEMENTS

Razoss, Tel-Aviv, Israel   June 2010 – Present

Designed the architecture and implemented a user friendly extensible toolbars generator (like Wibiya/Conduit)
• Working in Google App Engine cloud
• The servers-side code designed to handle simple AJAX APIs, leaving to the client as much as possible
• Widgets development

WhiteWeb, Ramat-Gan, Israel   March 2009 – June 2010

Implementing and maintaining Babylon's translation/dictionary sites
• Rebuilding Babylon's online translation and online dictionary websites: both for product improvements and SEO improvements. See http://translation.babylon.com and http://dictionary.babylon.com
• System administration of LAMP VPSes using SSH (CentOS and Ubuntu)
• Developing JS based translation widget with different skins

Convertonet (Mansion), Hertzelia, Israel   April 2008 – February 2009

Coding for the SEO Department
• Process automation using GreaseMonkey based scripts
• Implementing SEO changes on Casino.Com and Mansion Casino sites
• Developing PHP-based tools in order to control and expand the peripheral SEO network of Mansion Team and Casino.Com sites
• Developing scripts which automatically installed hundreds of Wordpress sites on VPSes and routinely added content to them

PERSONAL DETAILS

Date of birth: 02-07-1989
Status: Single
Nationality: Israeli

OPEN SOURCE PROJECTS

My Projects:

osp-dist   https://github.com/theosp/osp-dist
   My development environment

bupler-lib   https://github.com/theosp/bupler-lib
   BASH library that was born with the jQuery's moto: "Write Less, Do More". It's an attempt to make the BASH language pseudo object oriented.

theosp-common-js   https://github.com/theosp/theosp_common_js
   My small JS lib I use in every project

github-ce   https://github.com/theosp/github-ce
   githubCE - github Chrome Extension - User interface enhancements for github

theosp-nodejs-template-engine   https://github.com/theosp/theosp-nodejs-template-engine
   Template engine for nodejs

Contributions:

headjs   https://github.com/theosp/headjs
   Improved support for IE8 (see also a blog post about that issue http://bit.ly/ebf6So)

jquery-tokeninput   **https://github.com/theosp/jquery-tokeninput**
   Improved UI experience

KEY WORDS

Xhtml	Css	Redis	Simpledb
Bash	Awk	Sed	Python
Php	Javascript	Jquery	Django
Mysql	Sqlite	App engine	Nodejs
Git	Github	lesscss
